

**Mason Creek Utility District
Harris County, Texas**

**REVISED ORDER ESTABLISHING RATES AND POLICIES FOR
WATER, SEWER AND OTHER SERVICES AND FACILITIES
PROVIDED BY MASON CREEK UTILITY DISTRICT AND FOR
ADMINISTRATION OF THE DISTRICT; PRESCRIBING PENALTIES
AND PROVIDING FOR COMPLIANCE ORDERS; AND CONTAINING
OTHER PROVISIONS RELATING TO THE SUBJECT.**

*Including Amendments Adopted Through
February 18, 2009*

WHEREAS, Mason Creek Utility District (the "District") owns a water and sewer system and other facilities designed to serve present and future inhabitants within the District; and

WHEREAS, it is necessary that fees, charges and conditions be established for service from the District's water and sewer system and other facilities; and

WHEREAS, the Board of Directors has carefully considered the matter and is of the opinion that the following conditions should be revised, established and re-established for service from the District's water and sewer system; NOW, THEREFORE,

BE IT ORDERED AND RESOLVED BY THE BOARD OF DIRECTORS OF MASON CREEK UTILITY DISTRICT, HARRIS COUNTY, TEXAS, THAT:

Section 1: Definitions. In this order:

(a) "SFR connection" shall mean and include any single-family residence and any single unit of a townhouse or multiplex dwelling structure (other than apartments) when such is separately metered. Townhouse or multiplex dwelling structures are those where: (i) each dwelling unit is owned separately (this does not preclude private streets, access easements or common areas), (ii) the owner of each unit has the exclusive right to occupy the land where it is located and the air space above it, and (iii) the unit is served by the District directly from a street or other public easement.

(b) "Commercial connection" shall mean and include any office building, hotel, retail store, clubhouse, warehouse, service station, or other establishment rendering a service or offering a product for sale to the public, apartments, churches, schools and any and all establishments or premises which are not SFR connections as defined herein.

(c) "Back-up connection" shall mean a connection to the system of another water district or water utility which has entered into a contract with the District for back-up water or sewer service from the District; such a contract may provide for two-way, or mutual, back-up.

(d) "Unmetered fire connection" means a connection that serves only a closed-type automatic fire sprinkler system, where water can only be drawn off through a sprinkler head.

Section 1A: Utility Capacity Letters.

(a) *Purpose And Intent.* The purpose of this section is to provide predictable procedures and rules for responding to utility capacity inquiries. These regulations shall be applied and interpreted so that projects needing utility capacity can be examined and served on a reasonable basis, and also so that available capacity can be apportioned fairly and equitably to all areas in the District likely to require it.

(b) *Application of Section; Prior Provisions.* This section applies to all requests for new or expanded utility capacity received after June 16, 1993. This section supersedes and replaces all previous rules, policies and procedures for utility capacity matters, including but not limited to the interim regulations adopted August 19, 1992. Any previous letters of availability or utility commitment are terminated (unless issued in accordance with the interim regulations adopted August 19, 1992), but the holder of any such terminated letter or commitment is free to re-apply under this section.

(c) *Owner's Application, Fee.* The owner of a tract of land needing new or increased District utilities may apply in writing to the District office. The application must include a full description of the buildings and structures to be served, the water, sewer and drainage facilities to be constructed, the water and sewer (central plant) capacities requested, expressed in gallons per day on an average day ("GPD"), and the line capacities requested, expressed in units prescribed by the District's engineer. The application must include a non-refundable fee, determined in accordance Section 5 of this order.

(d) *Initial Review.* The District's operator and engineer shall review each application received (except for applications covering only a single-family residence, which the operator alone may review and approve). They shall submit their recommendations to the Board.

(e) *Board Determination; Criteria.* The Board shall determine if the application can be approved by applying the following criteria: (1) whether sufficient unused and unreserved central water and sewer plant capacity exists to serve the applicant, after making a reasonable allowance for future service to the remainder of the District, (2) whether sufficient water, sewer and drainage lines and facilities exist to serve the applicant, taking into account the remainder of the area to be served by such lines and facilities, (3) whether the proposed buildings or structures will impose any unreasonable burdens on the District's systems, in terms of quality of effluent, flooding, peak demands or other demand or use characteristics, and (4) whether the applicant has the readiness, willingness and ability, in a timely manner, to carry out the project and discharge all obligations to the District, including the payment of charges, fees, taxes, etc. With respect to criteria (1) and (2), above, the standard reference level of service for all unserved land in the district is established at a level equivalent to three SFR connections per acre, and this reference level shall be used unless specific circumstances indicate that it is not feasible to provide such level to any specific tract or that conditions on other tracts call for a different base level of service. However, this does not prohibit higher levels of service where capacity is actually

available and not likely to be used for other tracts, taking into account costs, feasibility and revenues. Neither this rate order nor any capacity study or allocation shall ever be construed to create any entitlement to a specific level of service, except to the extent actually written down in a standard utility response letter approved in accordance with this section, and subject to all conditions and limitations of such a letter.

(f) *Letters.* If the application is approved, the District shall cause a standard utility response letter to be sent to the applicant, including the particular features of the application approved by the Board, any special provisions and standard utility connection policies and procedures. All fees required by this rate order must be paid, in addition to the non-refundable application fee. All response letters shall expire on the 180th day following the date of issuance, unless actual construction of all the covered buildings and facilities is started on or before such 180th day and prosecuted diligently to completion thereafter. Construction is not deemed to start until the foundations are actually poured or constructed.

Section 2: Tap Fees (Water System Only). The following fee shall be received by the District before any new or additional connection is made to the District's water system:

<u>Single-Family Residences</u>	<u>Fee*</u>
3/4" or 5/8" tap (standard)	\$ 480.00
1" tap	837.00
1 1/2" tap	1,313.00
2" tap	1,789.00
 <u>Commercial Connections</u>	 <u>Fee*</u>
3/4" or 5/8" tap (standard)	595.00
1" tap	952.00
All taps 1 1/2" and larger	Out-of-pocket cost to District plus 100%‡
 <u>Secondary Water Meters and Taps</u>	 <u>Fee*</u>
Any water taps made to serve non-sewer uses at premises already served by an existing water and sewer tap, pursuant to 8(e)(1)(C), below.	\$175 for a 3/4" or 5/8" tap; larger taps are charged at the actual out-of-pocket cost to District, but not less than \$175
 <u>Back-up Connections</u>	
(Fee is as provided in the contract with the District.)	

* Indicates that, in addition to the above-described fees, the applicable fees for commercial plan-checking/permits and SFR or commercial inspections must be paid, as prescribed below. An additional charge may be applicable under Section 6 hereof (relating to house and building lines)

‡ Indicates that, with approval of the Board, the fee for a public or semi-public institution is \$100 per required inspection trip, if the institution: (i) obtains approval by the District's engineer of the plans and specifications for the meter and all related equipment, as provided elsewhere in this rate order (see "Plan Checking, Etc.), (ii) purchases and installs such meter and equipment, at its own expense, and conveys it to the District free and clear of all liens, etc., and (iii) makes the installation available for inspection when requested by the District's operator, before it is covered. In this paragraph, a "public or semi-public institution" means an institution that is owned by a governmental or non-profit entity and that regularly admits members of the public without charge.

Section 3:-Standards (All Plumbing). All plumbing and drainage facilities, including private or internal plumbing facilities for water or wastewater, must meet standards required for facilities connected to the City of Houston water, sewer and drainage systems and such additional standards as are prescribed by: (i) state laws, rules and regulations, including those prescribed by the Texas Natural Resource Conservation Commission, (ii) the districts which receive and treat wastewater from the District, (iii) the District's Plumbing Code attached as Appendix "B," and (iv) rules promulgated by the District's engineer for protection of the District's systems. Grease traps on all commercial establishments must comply with the City of Houston specifications. All connections to the District's sewer shall be made in accordance with this order and all of the District's other rules and regulations.

Section 4: Plan-Checking, Inspections, and Service Agreements (Water, Sewer And Drainage).

(a) *When Required.* Plan-checking, inspections, service agreements and related fees are required in the following indicated circumstances:

Circumstances	Plan-checking	Inspections	Service Agreement	Fees
New connection	All except SFR	All	All	Tap, plan checking (except SFR) and inspection
New construction	All except SFR	All	All	Plan checking (except SFR) and inspection
Material improvement, correction or addition to private plumbing facilities.	All except SFR	All	All	Plan checking (except SFR) and inspection
Change in name or transfer of existing account	None	None	All	Transfer
There is reason to believe that cross-connections or other unacceptable plumbing practices exist	All	All	None	Inspection (only if unacceptable practice found)

(b) *Application for Plan Checking.* The applicant for plan checking must submit a site survey and complete plans and specifications for the buildings to be served by the connection and related structures, all in the form prescribed by the District's engineer.

(c) *Plan-checking Fee.* The fee for a new site is \$200.00 per acre (but not less than the District's out-of-pocket costs for engineering and legal review and related work, including easement dedications and utility availability matters, to the extent not previously paid), and provided that the Board may reduce the fee in case only a small part of the site is developed with buildings. This fee shall be applied only to the cost of having plans, and related matters reviewed. In case pre-existing buildings space on a site is added to, enlarged or changed in use, an additional fee shall be required. The additional fee shall be a proportionate part of the total fee for a new building site of the same size, with the proportionate part being based on the size of the added, enlarged or changed building space as compared to the total building space after addition, enlargement or change, but not less than the out-of-pocket costs mentioned above.

(d) *Inspections.* In the indicated circumstances, customer service inspections of all affected plumbing facilities is required, including private or internal plumbing, both water and wastewater. Each inspection shall be performed by an inspector selected by the District and having the credentials required by state regulations, who must file a certification with the District office containing all of the information and certifications shown in the sample certification form attached as Appendix "A." The times for the inspections are as follows:

- (1) Before the slab or foundation is poured or affixed and before underground facilities are covered.
- (2) After rough-in, and before facilities are covered by building materials.
- (3) After completion.

When a backflow prevention assembly is required by 30 TAC 290.44(h), or other law, rule or regulation, there must also be a test of the backflow prevention assembly by a recognized tester having the credentials required by applicable regulations, and the tester must file a test and maintenance report with the District office containing all of the information and certifications

shown in the sample certification form attached as Appendix "C." The District shall retain inspection and test certifications and reports for at least 10 years. The fee for each customer service inspection and tests (if applicable) are specified elsewhere in this order, and such fees are additional charges for water service.

(e) *Other Charges.* Additional charges, as applicable, will be due under Sections 2 and 5 (for example, the tap fee and the fee for inspection), and additional charges may be applicable under Section 6 (relating to house and building lines).

(f) *Service Agreement.* A service agreement, in substantially the form required by state regulations (see Appendix "D"), is required in the indicated circumstances.

Section 5: Other Fees and Inspections.

(a) *SFR Plumbing Inspection.* A fee of \$115.00 shall be charged by the District for each SFR inspection provided or paid for by the District. Of this fee, \$75.00 shall be refundable when the inspection is completed, if the facilities are not covered up before inspection and if the first inspection is satisfactory. If more than one attempted inspection is required, the District will retain the entire \$115.00

(b) *Non-SFR Inspection.* A fee of \$100.00 shall be charged by the District for each of the times when a non-SFR inspection is provided or paid for by the District.

(c) *Utility Capacity Letters.* The non-refundable application fees for utility capacity letters are: (i) \$75.00 for a application for a single-family lot, or (ii) the District's actual out-of-pocket costs for engineering and legal review and related work, including easement dedications and utility availability matters, to the extent not previously paid, but not less than \$200, for all other applications. Such fees shall be credited against related fees due at the time a connection is sought to be established (for example: tap, permit, plan-checking, or inspection fees), if the connection is ought to be established, for the same project, before the expiration of the capacity letter. The District may require deposits of estimated costs before beginning work on applications for other than one single-family lot.

(d) *Pools And Irrigation Systems.* From and after January 1, 1994, if a new water connection is established and serves a swimming pool (including a spa or "hot tub") or an irrigation system, the following shall apply:

- (1) the plumbing shall be designed and constructed so that the chance for backflow or cross-connection is minimized;
- (2) there must be an approved anti-backflow system to protect the District's system from the possibility of backflow;
- (3) there must be an inspection of the internal plumbing before the connection is made and annually thereafter (if requested by the District); and
- (4) there is a fee of the greater of the District's out-of-pocket cost, or \$25 for each such inspection, which is an additional charge for water service.

(e) *Discharge Causing Costs to the District.* If the "Approving Authority" orders that payment be made to cover the cost of handling and treating waste under the Plumbing Code (see "VII" in Appendix B), the payment is an additional charge for sewer service.

(f) *House And Building Lines.* An additional charge for utility service may be applicable under Section 6 hereof (relating to house and building lines).

Section 6: House and Building Lines.

(a) *User/Owner Responsibilities.* It shall be the joint and several responsibility of each user and property owner to install and maintain the water and sewer lines, including connection devices and incidental work, from the point of connection into the District's water and sewer system to the building or premises served (referred to hereinafter as "house lines").

(b) *Disconnection or Repair.* If a house line is not properly installed or maintained, and if it appears that the District's system is being adversely affected, the District may, subject to the notice procedures of the next subsection:

(i) disconnect the house line involved, or
(ii) if it appears that a substantial savings in cost will occur if the deficiency is corrected in the first instance (rather than being disconnected and then corrected by a separate operation), the District may proceed to correct the deficiency, but only if such work can be accomplished upon public right of way or easements.

(c) *When Notice Required.* Prior to taking any such action, the District shall take reasonable steps to notify the current user (if any) and owner of the premises involved in an attempt to provide them: (i) an opportunity to show cause why the action should not be taken and (ii) a reasonable time within which they may correct any deficiencies at their own expense (subject to the District's right to inspect the work and payment by them of the normal inspection fees). However, in case of imminent peril to health or safety caused by a house line, the District may take immediate action to disconnect the house line or to correct the deficiency. The District shall make reasonable efforts to notify the user and owner thereafter.

(d) *Payment of Cost.* When a house line is disconnected in accordance with this section, it shall not be reconnected until the District's actual cost incurred is paid, except upon order of the Board for good cause shown. When the District corrects a deficiency in accordance with this section, the District's actual cost incurred shall be paid as follows:

(i) If there is a current user at such premises, the cost shall be added to the next monthly bill as an additional charge for utility service. If the Board finds that the corrected house line will benefit not only the owner but also future users at the premises involved, the Board may allow payment of the charge in installments (including any carrying costs) upon request of the user and upon such reasonable conditions as the Board may prescribe.

(ii) Until the full cost is paid (including any carrying cost incurred by the District during the period of non-payment), no new service, additional type of service or transfer of existing service shall be allowed to the premises involved, either to the current user, to the owner or to any other user, except upon order of the Board for good cause shown.

(e) *Deed Record Notices.* The President or Vice President of the District is authorized to place in the Real Property Records of Harris County a formal statement of the nature and amount of the charges claimed by the District under this section as well as the requirement that the same be paid before reconnection or extension of service is allowed. Either officer may also give such other notice as the officer may deem advisable.

(f) *Prior Work.* This section applies to work done prior to this time, if it was done in substantial compliance with this section.

Section 6A: Private Plumbing, Inspections, Repairs, Etc.

(a) *General Responsibilities.* It shall be the responsibility of each person controlling a site to:

- (1) provide, operate and maintain private plumbing for the site in compliance with the Plumbing Code and the other provisions of this order;
- (2) provide access for authorized representatives of the District to inspect all private plumbing, at reasonable times as may be requested by the District's representative (Note: The District's utility operator is authorized to perform such inspections and to authorize other representatives to perform such inspections); and
- (3) maintain all private plumbing for the site in good repair, free of breaks, leaks, cross-connections and similar defects.

(If two or more persons control a site, their responsibilities are joint and several.)

(b) *Compliance Schedule; Special Permits.* When a new or different private plumbing facility, fixture or installation is first required for an existing site, and whenever an existing site must be "retrofitted," the Board may grant a special permit to extend the time for coming into compliance with this rate order, if a person in control of the site: (i) applies for the permit in writing, and (ii) demonstrates that measures are being taken to mitigate the impact of the non-compliance. The permit may contain conditions designed to achieve compliance within a stated period of time, or upon stated events. The permit must allow periodic inspection by the District, require an additional monthly water or sewer fee, and be signed and acknowledged by the owner of the property, in recordable form. The amount of the fee shall be prescribed by the Board and designed to recover the costs to the District of enforcement, monitoring the non-compliance (and mitigation), handling any additional flows or other results of the non-compliance, etc. Compliance with such a special permit is a defense to violating this rate order (with respect to the authorized delay in achieving compliance).

(c) *Certain offenses.* Within the boundaries of the District, it shall be unlawful for any person or entity to:

- (1) erect, construct, enlarge, alter, repair, move, improve, remove, convert, demolish, equip, use, operate or maintain any plumbing that is connected to or served by the District's water or sanitary sewer system, or permit the same to be done, if the plumbing or the premises do not comply with the Plumbing Code; or
- (2) discharge or deposit any substance into the District's sanitary sewer system, or into any fixture or fitting that is connected to the District's sanitary sewer system (directly or indirectly), if the discharge or deposit is prohibited by the Plumbing Code.

A violation of this section shall constitute a misdemeanor, equivalent to the violation of a city ordinance, and shall be punishable upon conviction by a fine not to exceed \$500 per day. To the extent allowed by law, a civil penalty not to exceed \$500 per day is also imposed for each violation. Each day a violation continues shall be a separate offense. It shall be an affirmative defense, in any proceeding to enforce this section, that the conduct in question was covered by the Texas Penal Code or otherwise preempted by a state statute.

(d) *Disconnection or Repair.* If private plumbing is not properly installed, maintained or operated, and if it appears that the District's facilities are being adversely affected, the District may, subject to the notice procedures prescribed below: (i) disconnect the private plumbing involved, or (ii) if it appears that a substantial savings in cost will occur if the deficiency is corrected in the first instance (rather than being disconnected and then corrected by a separate operation), the District may proceed to correct the deficiency, but only if such work can be accomplished upon public right of way or easement. Prior to taking any such action, the District (or its President or Vice President) shall take reasonable steps to notify the current user (if any) and owner of the premises involved and provide them an opportunity to show cause why the action should not be taken and a reasonable time within which they may correct any deficiencies at their own expense (subject to the District's right to inspect the work and payment by them of the normal inspection fees). However, in case of imminent peril to health or safety caused by private plumbing, the District may take immediate action to disconnect the house line or to correct the deficiency. The District shall make reasonable efforts to notify the user and owner thereafter.

(e) *Payment of Cost.* When private plumbing is disconnected in accordance with this section, it shall not be reconnected until the District's actual cost incurred is paid, except upon order of the Board for good cause shown. When the District corrects a deficiency in accordance with this section, the District's actual cost incurred shall be paid as follows:

- (i) If there is a current user at such premises, the cost shall be added to the next monthly bill as an additional charge for utility service. If the Board finds that the corrected house line will benefit not only the owner but also future users at the premises involved, the Board may allow payment of the charge in installments (including any carrying costs) upon request of the user and upon such reasonable conditions as the Board may prescribe.
- (ii) Until the full cost is paid (including any carrying cost incurred by the District during the period of non-payment), no new service, additional type of service or transfer of existing service shall be allowed to the premises involved, either to the current user, to the owner or to any other user, except upon order of the Board for good cause shown.

(f) *Deed Record Notices.* The President or Vice President of the District is authorized to place in the Real Property Records of Harris County a formal statement of the nature and amount of the charges claimed by the District under this section as well as the requirement that the same be paid before reconnection or extension of service is allowed. Either officer may also give such other notice as the officer may deem advisable.

(g) *Effect of Section.* This section may apply to premises and connections to which other sections of this rate order also apply. In those circumstances, the District may enforce any section that applies and may enforce all sections that apply; proceedings under one section do not bar proceedings under another.

Section 7: Back-up Connections. The terms and conditions for back-up service shall be as provided in the contract with the District. This rate order shall only apply to back-up connections to the extent not inconsistent with the contract.

Section 8: Water and Sewer Rates.

(a) *In General.* Charges for water and sewer service shall be billed monthly. All bills shall be due and payable upon receipt. Payment must be physically delivered to the District office or, except as provided below, to the District's depository bank (if the bank has been designated by the Board of Directors to receive such payments directly) on or before the 15th day of the calendar month which immediately follows the calendar month in which the billing period for the payment in question ended. Payments for dishonored or returned checks (including the additional charge therefor) and payments of delinquencies and reconnection charges after service has been disconnected must be made at the District's office by cashier's check, certified check or money order.

(b) *Due Date; Additional Charge.* If any payment is not so made in full on or before such 15th day, an additional charge accrues, but only if the amount unpaid as of such 15th day is \$5.00 or more. If the unpaid amount is \$5.00 or more, the additional charge is 10% of the charges for the preceding calendar month (i.e., the current month bill).

(c) *Payments Mailed.* Users may mail payments for their own convenience, but any user who mails payment or uses any other delivery service must pay any additional charge which accrues because a payment is received late.

(d) *Waiver of 10% Charge.* If a user demonstrates to the satisfaction of the District's designated billing officer, or to the satisfaction of the Board of Directors, that the user did not receive a bill in time to make payment on or before such 15th day for some reason not within the user's control, the 10% additional charge for such payment may be waived.

(e) *Basic Rates.* The rates for water and sewer service shall depend upon the type of connection and, in the case of water service for commercial connections, upon the size of the meter serving the connection. Additional charges under Section 6 hereof (relating to house and building lines) may also apply. Monthly rates for water and sewer service are hereby established as set out in Appendix E and F, attached. Charges for work provided by the District, or by the District operator at District expense, shall be billed at the following unit rates:

<i>Category</i>	<i>Rate</i>
Large backhoe	\$40 per hour
Small backhoe	\$16 per hour
Pull track and trailer	\$9.50 per hour
Service truck	\$7.75 per hour
Two-inch pump	\$5.75 per hour
Sewer jet machine, with operator and helper included \$125 per hour,	\$150/hr overtime
Equipment operator	\$45 per hour, \$67.50/hr. overtime

Supervisor	\$30 per hour
All other labor	\$15 per hour regular, \$22.50/hr. overtime
Materials, rentals, subcontract items, etc.	Cost plus 20%

(f) *Returned Items.* In case a customer pays by check, electronic transfer, credit card or other instrument which is dishonored or returned for any reason not caused by the District, there is an additional service charge (for utility service) of \$25.00. *Exception:* The district may not collect the additional service charge for a dishonor of a credit card if: (i) the district is notified at the time of payment that the payment is not honored; and (ii) the customer immediately submits to the district an alternative form of payment.

(g) *Regulatory Assessments.* In addition to the rates and charges herein prescribed, there shall be collected from each retail customer a regulatory assessment equal to one-half of one percent of the charge for retail water or sewer service. The items subject to the regulatory assessment shall be as prescribed from time to time by the appropriate state regulatory authorities. The regulatory assessment shall be listed on the customer's bill as a separate item and collected in addition to the other charges for utility services.

(h) *Damage to District Meter, Box or Curb Stop.* If a customer (or any person acting at the request of, or on behalf of, the customer) breaks a District meter, meter box or curb stop (cut-off valve), there is an additional charge for water service equal to the actual, out-of-pocket cost to the District of repairing or replacing the item damaged.

Section 8A: Plumbing Code, Inspections, Etc.

(a) *Adoption of Code.* The "Plumbing Code" set out in Appendix B is adopted in its entirety. It shall apply to all buildings, structures and fixtures connected, or proposed to be connected, to the District's sanitary sewer system.

(b) *Trap Inspections.* Where a new trap is required pursuant to the Plumbing Code (*see* "IX" in Appendix B), the District's operator shall conduct monthly inspections of the trap until the trap passes six consecutive monthly inspections. Then, the operator shall inspect the trap quarterly, unless the Board approves a longer interval upon application of the customer. To obtain a longer interval, the customer must demonstrate consistent compliance with the Plumbing Code and a stable program for maintaining the trap. Whenever a required trap is missing, bypassed or found in non-compliance, and whenever access to inspect is denied, the inspections will start over on monthly basis, as if the trap were new.

(c) *Records For Traps.* Each customer with a trap must maintain complete records to show when the trap is cleaned and where the grease is transported. All grease and other trapped substances must be disposed of in a lawful manner. A trap will not pass an inspection if any such records are missing.

(d) *Trap Inspection Fees.* Each trap inspection shall cost the greater of the District's out-of-pocket costs or \$20, which shall be an additional cost of sewer service and added to the monthly bill of the customer.

(e) *Compliance Schedule.* All existing commercial customers shall come into compliance with the Plumbing Code's trap and sampling well requirements (if applicable) on or before the 180th day following the adoption of this section. The Board may grant a special permit to extend this deadline upon application of the customer and a demonstration that the customer has begun work to come into compliance and will proceed with diligence to completion. The permit may contain conditions designed to get the customer into compliance at the earliest practicable date. The fee for the special permit is \$4.00 per day of extension, which shall be an additional cost of sewer service and added to the monthly bill of the customer.

(f) *Inflow and Infiltration, Compliance Orders.* In case of a violation of the Plumbing Code relating to inflow or infiltration from private property that pre-dated the adoption of the Plumbing Code, the Board may approve a compliance order allowing the owner of the property a reasonable period of time to come into compliance. The compliance order must: (i) require partial compliance as soon as practicable, (ii) allow periodic inspection by the District, (iii) require additional monthly service charges sufficient to cover the District's increased costs, and (iv) be signed and acknowledged by the owner of the property, in recordable form.

(g) *Access.* Each customer shall provide access for authorized representatives of the District to inspect all traps and other plumbing facilities. Access shall be provided at reasonable times as may be requested by the District's representative. The District's chief utility operator is authorized to perform such inspections and to authorize other representatives to perform such inspections.

(h) *Certain offenses.* Within the boundaries of the District, it shall be unlawful for any person or entity to:

- (1) erect, construct, enlarge, alter, repair, move, improve, remove, convert, demolish, equip, use, operate or maintain any plumbing that is connected to or served by the District's water or sanitary sewer system, or permit the same to be done, if the plumbing or the premises do not comply with the Plumbing Code; or
- (2) discharge or deposit any substance into the District's sanitary sewer system, or into any fixture or fitting that is connected to the District's sanitary sewer system (directly or indirectly), if the discharge or deposit is prohibited by the Plumbing Code.

A violation of this section shall constitute a misdemeanor, equivalent to the violation of a city ordinance, and shall be punishable upon conviction by a fine not to exceed \$500 per day. To the extent allowed by law, a civil penalty not to exceed \$500 per day is also imposed for each violation. Each day a violation continues shall be a separate offense. It shall be an affirmative defense, in any proceeding to enforce this section, that the conduct in question was covered by the Texas Penal Code or otherwise preempted by a state statute.

Section 9: Disconnection.

(a) *Notice, Etc.* Failure to pay all taxes, fees and charges when due, failure to provide any required deposit, failure to obtain any required permit or failure to comply with any of the District's orders, rules and regulations shall be grounds for disconnection of water and/or sewer

service until such failure is remedied as provided for herein. On or before the seventh day prior to disconnecting any service, notice of intent to disconnect will be mailed to: (i) the affected ratepayer at the ratepayer's most recent address as shown in the District's records, and (ii) the current "occupant" at the service address as shown in the District's records. *Exception:* The hearing official may approve a different notice method, if the hearing official finds that it was reasonably calculated to bring the matter to the attention of the ratepayer and occupant (if different). The notice must provide an opportunity for the matter to be heard by the hearing official, before disconnection. The hearing official is the President or Vice President of the District, or, if the notice so provides, the entire Board. Each hearing official is authorized to correct any amounts claimed to be owed and to rectify any mistaken circumstances relating to the disconnection. Each hearing official is authorized to halt or postpone the disconnection, as may be appropriate in any given case, and to reduce or waive additional charges imposed in connection with the disconnection proceedings. The Board, for good cause shown, may also compromise and settle any disputed amount (subject to restrictions imposed by the Texas Tax Code in the case of taxes). After the opportunity for the hearing, disconnection may occur, unless otherwise ordered by the hearing official.

(b) *Payments; Reconnection Charge.* After a hearing notice is sent: (i) an additional charge in the amount of \$9.00 per addressee (for costs of notice) accrues, and (ii) any payments must be made by cashier's or certified check, or other method that assures good funds. If service is disconnected, an additional charge of \$50.00 accrues. If the District also removes a water meter, after indications that there was unauthorized use of water at the premises (actual or attempted) within the preceding 12 months, there is an additional charge of \$100.00. Additional charges under Section 6 hereof (relating to house and building lines) may also apply. The District will require full payment of all accrued charges, plus a deposit (see below), before a reconnection is made, unless otherwise ordered by the hearing official.

Section 9A: Deposits.

(a) *In General.* A deposit is required to: (i) establish new service, (ii) reconnect service disconnected under Section 9 and (iii) continue service to any ratepayer if the ratepayer gives two or more "bad checks" to the District in any 18-month period. (A "bad check" is a check or other order for payment that is dishonored for insufficient funds or otherwise returned unpaid.) Deposits are subject to the following regulations:

- (1) The minimum deposit shall be the estimated billing for two months's utility service for each account (peak months), but not less than \$150 for each account. *Exception:* The deposit for a secondary, "water only" account for an SFR customer who has a primary account in the same name serving the same house is \$50.
- (2) The minimum deposit is increased by 50% for each of the following factors, if present: (i) the applicant for service does not occupy the premises served (and is not a licensed real estate agent for a firm that has a written listing agreement for the premises and has no record of non-payment to the District), (ii) there is no proof of a written connection, such as ownership, a lease agreement or agency agreement, between the applicant for service and the premises served, (iii) service to the premises has been disconnected for non-payment at least twice while owned by the current owner, (iv) the applicant for service has a residence address more than 100 miles from the premises to be served, (v) the applicant for service cannot be found in a standard telephone directory, at the

address given to the District, (vi) there is good reason to believe that the applicant is acting as a "straw man" for another person or entity who does not sign the service agreement, or (vii) there are other circumstances indicating that information given by the applicant is incomplete, untrue or misleading.

- (3) If the minimum deposit is increased, as provided above, it must be paid long enough in advance of the start of service to assure the District that any check or order for payment will be honored.

The District may apply all or part of the deposit to pay charges accrued by a customer, provided:

(i) applying the deposit to pay a charge neither excuses a failure to pay nor prevents disconnection of service, and (ii) if there is a disconnection of service, the deposit must be restored (or increased, if required by this order) before reconnection. Each deposit shall be returned to the customer when 24 consecutive months elapse without a delinquency, provided all taxes, rates and charges are then paid current.

(b) *Modifications and Waivers.* The Board has the authority to modify, reduce or waive the deposit, in whole or in part, for good cause shown. The deposit for new service (not a reconnection following non-payment) is waived if: (i) the applicant owns the premises, and the premises are the applicant's residence homestead, according to records of the Harris County Appraisal District, or (ii) the applicant is a licensed real estate agent for a firm that has a written listing agreement for the premises and has no record of non-payment to the District.

Section 10: Transfer Fee. A fee of \$25.00 shall be charged by the District to cover the expense to the District in the transfer of water and sewer service from one customer to another. This fee shall cover the establishment of an account for the new customer. The transfer fee shall be billed to each new customer as an item on that customer's first monthly water and sewer invoice. Additional charges under Section 6 hereof (relating to house and building lines) may also apply.

Section 11: Easements. Before service is begun or expanded to any user or, once begun but before reconnection is made, the person requesting such service shall grant an easement of ingress and egress to and from the meter for such maintenance and repair as the District, in its judgment, may deem necessary.

Section 12: No Free Service. No free service shall be granted to any user for services furnished by the District's water and sewer system whether such user is a charitable or eleemosynary institution, a political subdivision or municipal corporation, and all charges for water and sewer service shall be made as required herein.

Section 13: Certain Recreational Facilities. (a) The Board of the District has found that the Nottingham Country Park (on Rennie Drive, in the District), including its size and location, were established in consideration of municipal and county recreational facilities, whether or existing or proposed, that serve or will serve the area in which the District is located. The standards for recreational facilities to be developed and maintained by the District at or near the park are as follows: (i) they shall be at least equal to the facilities previously in existence in the

area, and (ii) they shall meet or exceed prevailing standards for similar facilities in western Harris County. Funds for improvements for the park have been and shall be allocated from accumulated system funds and maintenance tax proceeds not pledged for other purposes. All such findings, standards and allocation are confirmed and re-adopted.

(b) The Board of the District has found that the Mason Creek Community Center (on Kingsland at Houghton Road, in the District), including its size and location, were established in consideration of municipal and county recreational facilities, whether or existing or proposed, that serve or will serve the area in which the District is located. The standards for the Center have been and are established as follows: (i) it shall be at least equal to the facilities previously in existence, and (ii) it shall meet or exceed prevailing standards for similar facilities in western Harris County. Funds for the Center have been and shall be allocated from accumulated system funds and maintenance tax proceeds not pledged for other purposes. All such findings, standards and allocation are confirmed and re-adopted.

Section 14: Other Provisions. The following are approved, adopted and incorporated into this order by the Board of Directors:

Appendix A	Service Inspection Certification Form
Appendix B	Plumbing Code
Appendix C	Backflow Prevention Form
Appendix D	Service Agreement Forms
Appendix E	Water Rates
Appendix F	Sewer Rates
Appendix G	Fees of Office and Expenses
Appendix H	Rules For Mason Creek Community Center
Appendix I	Records Management

Section 15: Superseding Order. This order supersedes all prior orders, resolutions and other actions of the Board concerning fees and charges for water and sewer service and the other matters prescribed by this order, and it is to be effective from and after its passage and approval. Periodic water and sewer rates shall apply to billing periods beginning after the date this order is passed and approved.

PASSED, APPROVED AND ADOPTED February 18, 2009.

/s/ Len Forsyth, President

ATTEST (SEAL):

/s/ Brian C. Connolly, Secretary

Appendix A Service Inspection Certification Form

MASON CREEK UTILITY DISTRICT Service Inspection Certification

Name of PWS _____	<u>Type Of Inspection</u>
PWS I.D.# _____	New Construction o
Location of Service _____	Addition to Private Plumbing o
	Suspected Previous Violations o
	in existing Plumbing

I _____, upon inspection of the private plumbing facilities connected to the aforementioned public water supply do hereby certify that, to the best of my knowledge:

- | | | | | | |
|---|------------|----------------|--|--------------------------|--------------------------|
| | Compliance | Non Compliance | | <input type="checkbox"/> | <input type="checkbox"/> |
| 1 | | | No direct connection between the public drinking water supply and a potential source of contamination exists. Potential sources of contamination are isolated from the public water system by an air gap or an appropriate backflow prevention assembly in accordance with state plumbing regulations. Additionally, all pressure relief valves and thermal expansion devices are in compliance with state plumbing codes. | <input type="checkbox"/> | <input type="checkbox"/> |
| 2 | | | No cross-connection between the public drinking water supply and a private water system exists. Where an actual air gap is not maintained between the public water supply and a private water supply, an approved reduced pressure-zone backflow prevention assembly is properly installed and a service agreement exists for annual inspection and testing by a certified backflow prevention device tester. | <input type="checkbox"/> | <input type="checkbox"/> |
| 3 | | | No connection exists which would allow the return of water used for condensing, cooling or industrial processes back to the public water supply. | <input type="checkbox"/> | <input type="checkbox"/> |
| 4 | | | No pipe or pipe fitting which contains more than 8.0% lead exists in private plumbing facilities installed on or after July 1, 1988. | <input type="checkbox"/> | <input type="checkbox"/> |
| 5 | | | No solder or flux which contains more than 0.2% lead exists in private plumbing facilities installed on or after July 1, 1988. | <input type="checkbox"/> | <input type="checkbox"/> |

Water service shall not be provided or restored to the private plumbing facilities until the above conditions are determined to be in compliance.

I further certify that the following materials were used in the installation of the plumbing facilities:

Service lines	Lead <input type="checkbox"/>	Copper <input type="checkbox"/>	PVC <input type="checkbox"/>	Other <input type="checkbox"/>
Solder	Lead <input type="checkbox"/>	Lead Free <input type="checkbox"/>	Solvent Weld <input type="checkbox"/>	Other <input type="checkbox"/>

I recognize that this document shall become a permanent record of the aforementioned Public Water System and that I am legally responsible for the validity of the information I have provided.

Date

Appendix B
Plumbing Code
As adopted 6-16-93

The District hereby adopts the "City of Houston Plumbing Code", as amended from time to time (Current version as of 6-16-93 is the 1991 Uniform Plumbing Code with City of Houston amendments.) , insofar as it applies to water supply and sewage collection systems, and to the extent that it is not contradictory to this Order or the District's rules and regulations. Only those materials listed in "BUILDING SERVICE LINES," below, are approved for use in the District. The Houston City Code shall govern on method of installation, pipe sizing, fixture count, and all general requirements.

I. BUILDING SERVICE LINES

A. Waste pipe material shall be of the following material only:

1. Schedule 40 ABS Plastic CS 270 NSF-DWV, ASTM Designation D-2661.
2. Schedule 40 PVC Plastic CS-272 NSF-DWV, ASTM Designation D-2665 or conforming to ASTM specification D3034 and installed according to ASTM D2321 with SDR35 or better.
3. For temperatures in excess of one hundred (100) degrees Fahrenheit, Schedule 40 CPVC Plastic, ASTM Designation D-3034 MUST BE USED.
4. Cast Iron Hub Type Soil pipe Extra Heavy Service weight, ASTM A-74, with Rubber Ring and Gasket or Lead and Oakum joint. "No -Hub" pipe is not permitted below grade.
5. SIX INCH ONLY shall be not less than ABS-SDR 23.5 - ASTM D-2751 0.265" wall thickness.
6. ABS Composite Truss pipe may be used for eight (8) inch diameter and above.
7. Ductile iron pipe (push on joint) conforming to ANSI A21.51.

B. Water pipe material shall be:

1. Schedule 40 galvanized steel pipe, ASTM A-53.
2. Seamless Copper Tubing Type K, L, or M, ASTM B-88.
3. Type I PVC 1120 and PVC 1220, 160 psi minimum pressure rating, ASTM D-1784.
4. Asbestos cement pipe (Transite or equal) Class 150 for eight (8) inch and larger; Class 200 for six (6) inch.
5. Ductile iron pipe (push on joint) conforming to ANSI A21.51.

6. Polyethylene for one (1) inch and smaller, ASTM Designation D-2239.
- C. Diameter of Service Lines:
1. Residential service lines shall be sized according to City of Houston Plumbing Code and in no case shall be smaller than 3/4 inch for water or 4 inch for waste.
 2. Commercial service lines shall be sized according to City of Houston Plumbing Code and in no case shall be smaller than 1 inch for water or 6 inch for waste.
- D. Solvent for ABS shall be ASTM Designation D-2235. Solvent for PVC shall be ASTM Designation D-2564. Industrial Polychemical Solvent 793 shall be used for joining PVC to ABS.

II. GRADE (WASTE LINES)

- A. Minimum grade for four inch sewer pipe shall be one percent (one foot drop/hundred feet), with a maximum grade of two percent (two foot drop/hundred feet).
- B. Minimum grade for six inch sewer pipe shall be 0.7 percent (8.5 inch drop/hundred feet), with a maximum grade of 1.5 percent (18 inch drop/hundred feet).

III. CONNECTION OF BUILDING STUB-OUTS TO SERVICE LINES

- A. Building tie-on connections shall be made directly to the stub at the foundation on all waste outlets. Septic tanks and all grease traps must be bypassed. Septic tanks and grease traps should be pumped out, sides broken down, then filled with dirt or sand. (This applies only to existing residences being connected.)
- B. Type of Waste Connections: Watertight adaptor shall be used at house connections. All other connections shall be solvent weld.
- C. No drain rim shall be installed less than one foot above the top of the nearest manhole.

IV. FITTINGS AND CLEANOUTS

- A. No bends or turns at any point shall be greater than 45 degrees.
- B. Each horizontal drainage pipe shall be provided with a cleanout at its upper terminal; and each such run of piping which is more than 90 feet in length shall be provided with a cleanout for each 90 feet or fraction thereof, in the length of such piping.
- C. Each cleanout shall be installed so that it opens in a direction opposite to the flow of the waste and, except in the case of "wye" branch and end-of-line cleanouts, cleanouts shall be installed vertically above the flow line of the pipe.
- D. Cleanout should be made with air tight mechanical plug.
- E. This section applies to each floor drain or similar fitting that is: (i) connected to the

District's sanitary sewer system, directly or indirectly, (ii) in a place freely accessible by the public, but not supervised, during 12 or more hours per day, (iii) described in a notice referencing this section from the District to the owner or other person in charge of the place. As close as practicable to each such drain or fitting, there must be a sign posted in plain view, with letters at least ½ inch in height, reading as follows:

IT IS UNLAWFUL TO DISCHARGE CHEMICALS OR HAZARDOUS WASTE INTO FLOOR DRAIN OR ANY OTHER CONNECTION TO THE SANITARY SEWER SYSTEM. Report violations to Mason Creek Utility District, [insert current phone number]

ES ILEGAL DESCARGAR PRODUCTOS QUÍMICOS O LOS DESECHOS PELIGROSOS EN DREN DEL PISO O CUALQUIER OTRA CONEXIÓN AL SISTEMA DE ALCANTARILLA SANITARIO. Divulgue las violaciones a Distrito de Servicios Publico de Mason Creek, [numero de telefono]

The District may provide signs to the owner or person in charge of the place where the sign is required to be posted.

V. UNDER SLAB PLUMBING

Under slab pipe and fittings shall be Cast Iron, Schedule 40 ABS or Schedule 40 PVC

VI. COMPLIANCE WITH EXISTING AUTHORITY

- A. Unless exception is granted by the Approving Authority, * the public sanitary sewer system shall be used by all persons discharging wastewater.
- B. Unless authorized by the Texas Department of Water Resources (or successor agency), no person may deposit or discharge any waste included in subsection "A" of this section on public or private property or into or adjacent to any:
 - natural outlet;
 - watercourse;
 - storm sewer;
 - other area within the jurisdiction of the District.
- C. The Approving Authority shall verify prior to discharge that wastes authorized to be discharged will receive suitable treatment within the provisions of laws, regulations, ordinance, rules and orders of federal, state and local governments. *Note: As used herein, "Approving Authority" means the District's engineer, unless: (1) the engineer decision is appealed, or (2) the engineer refers to a matter to the Board. In either case, "Approving Authority" then means the District's Board of Directors.*

VII. APPROVING AUTHORITY REQUIREMENTS

- A. If discharge or proposed discharges to public sewers may
 - deleteriously affect wastewater facilities, processes, equipment, or receiving waters;
 - create a hazard to life or health; or
 - create a public nuisance;the Approving Authority shall require
 - pretreatment to an acceptable condition for discharge to the public sewers;
 - control over the quantities and rates of discharge; and
 - payment to cover the cost of handling and treating the wastes.
- B. The Approving Authority is entitled to determine whether a discharge or proposed discharge is included under subsection "A" of this section.
- C. The Approving Authority shall reject wastes when it determines that a discharge or proposed discharge does not meet the requirements of subsection "A" of this section.

VIII. APPROVING AUTHORITY REVIEW AND APPROVAL

- A. If pretreatment or control is required, the Approving Authority shall review and approve design and installation of equipment and processes. A fee will be charged to cover the cost of said review.
- B. The design and installation of equipment and processes must conform to all applicable statutes, codes, ordinances, and other laws.
- C. Any person responsible for discharges requiring pretreatment, flow equalizing, or other facilities shall provide and maintain the facilities in effective operating condition at his own expense.

IX. REQUIREMENTS FOR TRAPS

- A. Discharges requiring a trap include
 - 1. grease or waste containing grease in amounts that will impede or stop the flow in the public sewers;
 - 2. oil;
 - 3. sand;
 - 4. flammable wastes; and

5. other harmful ingredients.
- B. Any person responsible for discharges requiring a trap shall at his own expense and as required by the Approving Authority
1. provide equipment and facilities of a type and capacity approved by the Approving Authority;
 2. locate the trap in a manner that provides ready and easy accessibility for cleaning and inspection; and
 3. maintain the trap in effective operating condition acceptable to the Approving Authority to protect overall Wastewater Treatment Plant operation.

X. REQUIREMENTS FOR BUILDING SEWERS

- A. Any person responsible for discharges through a building sewer carrying industrial wastes shall, at his own expense and as required by the Approving Authority
1. install an accessible control manhole;
 2. install meters and other appurtenances to facilitate observation sampling and measurement of the waste; and
 3. install safety equipment and facilities (ventilation, steps) where needed;
 4. maintain the equipment and facilities.
- B. No industrial waste will be discharged into the District's system.

XI. SAMPLING AND TESTING

- A. Sampling shall be conducted according to customarily accepted methods, reflecting the effect of constituents upon the sewage works and determining the existence of hazards to health, life, limb, and property.
- (NOTE: The particular analysis involved will determine whether a twenty-four (24) hour composite sample from all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls. Where applicable, 16-hour, 8-hour or some other period may be required. Periodic grab samples are used to determine pH and oil and grease.)
- B. Examination and analyses of the characteristics of waters and wastes required by the ordinance shall be
1. conducted in accordance with the latest edition of "Standard Methods", and
 2. determined from suitable samples taken at the control manhole provided or other control point authorized by the Approving Authority.

- C. BOD and suspended solids shall be determined from composite sampling, except to detect unauthorized discharges.
- D. The Approving Authority shall determine which users or classes of users may contribute wastewater which is of greater strength than normal domestic wastewater. All users or classes of users so identified shall be sampled for flow BOD, TSS and pH at least annually.
- E. District may select an independent firm or laboratory to determine flow, BOD, and suspended solids, if necessary. Flow may alternately be determined by water meter measurements if no other flow device is available and no other source of raw water is used.

XII. PROHIBITED DISCHARGES

- A. No person may discharge to public sewers any waste which by itself or by interaction with other wastes may
 - 1. injure or interfere with wastewater treatment processes or facilities;
 - 2. constitute a hazard to humans or animals, or
 - 3. create a hazard in receiving waters of the wastewater treatment plant effluent.
- B. All discharges shall conform to requirements of this Code.

XIII. CHEMICAL DISCHARGES

- A. No discharge to public sewers may contain:
 - 1. cyanide greater than .01 mg/l;
 - 2. fluoride other than the contained in that public water supply;
 - 3. chlorides in concentrations greater than 250 mg/l;
 - 4. gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas; or
 - 5. substances causing an excessive Chemical Oxygen Demand (C.O.D.)
- B. No waste or wastewater discharged to public waters may contain:
 - 1. strong acid, iron pickling wastes, or concentrated plating solutions whether neutralized or not;
 - 2. fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at

temperatures between thirty-two (32) and one hundred fifty (150) degrees Fahrenheit (0 and 65 degrees Centigrade).

3. objectionable or toxic substances, exerting an excessive chlorine requirement, to such degree that any such material received in the composite wastewater treatment works exceeds the limits established by the Approving Authority for such materials; or
 4. obnoxious, toxic or poisonous solids, liquids, or gases in quantities sufficient to violate the provisions of Section (12) A.
- C. No waste, wastewater, or other substance may be discharged into public sewers which has a pH lower than 6.0 or higher than 9.0 or any other corrosive property capable of causing damage or hazard to structures, equipment, and/or personnel at the wastewater facilities.
- D. All waste, wastewater, or other substance containing phenols, hydrogen sulfide, or other taste-and-odor producing substances, shall conform to concentration limits established by the Approving Authority. After treatment of the composite wastewater, concentration limits may not exceed the requirements established by state, federal, or other agencies with jurisdiction over discharges to receiving waters.

XIV. HAZARDOUS METALS AND TOXIC MATERIALS

- A. No discharges may contain concentrations of hazardous metals other than amounts specified in subsection "B" of this section.
- B. The allowable concentrations of hazardous metals, in terms of milligrams per liter (mg/l), for discharge to inland waters, and determined on the basis of individual sampling in accordance with "Standard Methods" are:

	Metal	Average	Not to Exceed	
			Daily Composite	Grab Sample
Arsenic	0.1	0.2	0.3	
Barium	1.0	2.0	4.0	
Cadmium	0.05	0.1	0.2	
Chromium	0.5	1.0	5.0	
Copper	0.5	1.0	2.0	
Lead	0.5	1.0	1.5	
Manganese	1.0	2.0	3.0	
Mercury	0.005	0.005	0.01	
Nickel	1.0	2.0	3.0	
Selenium	0.05	0.1	0.2	
Silver	0.05	0.1	0.2	
Zinc	1.0	2.0	6.0	

The allowable concentrations of each of the hazardous metals, stated in terms of milligrams per liter (mg/l).

- C. No other hazardous metals or toxic materials may be discharged into public sewers without a permit from the Approving Authority specifying conditions of pretreatment, concentrations, volumes, and other applicable provisions.
- D. Prohibited hazardous materials include but are not limited to:
 - Antimony,
 - Beryllium,
 - Bismuth,
 - Cobalt,
 - Molybdenum,
 - Uranyl ion,
 - Rhenium,
 - Strontium,
 - Tellurium,
 - Herbicides,
 - Fungicides, and
 - Pesticides.

XV. PARTICULATE SIZE

- A. No Person may discharge garbage or other solids into public sewers unless it is shredded to a degree that all particles can be carried freely under the flow conditions normally prevailing in public sewers. Particles greater than one-half ($\frac{1}{2}$) inch in any dimensions are prohibited.
- B. The Approving Authority is entitled to review and approve the installation and operation of any garbage grinder equipped with a motor of three-fourths ($\frac{3}{4}$) horsepower (0.76 hp metric) or greater.

XVI. STORM WATER AND OTHER UNPOLLUTED DRAINAGE

- A. No person may discharge to public sanitary sewers
 - 1. unpolluted storm water, surface water, groundwater, swimming pools, roof runoff or subsurface drainage;
 - 2. unpolluted cooling water;
 - 3. unpolluted industrial process waters;
 - 4. other unpolluted drainage;or make new connections from inflow sources.
- B. In compliance with the Texas Water Quality Act and other statutes, the Approving Authority may designate storm sewers and other watercourses into which unpolluted drainage described in subsection "A" of this section may be discharged.

XVII. TEMPERATURE

No person may discharge liquid or vapor having a temperature higher than one hundred fifty (150) degrees Fahrenheit (65 degrees Centigrade), or any substance which causes the temperature of the total wastewater treatment plant influent to increase at a rate of ten (10) degrees Fahrenheit or more per hour, or a combined total increase of plant influent to one hundred ten (110) degrees Fahrenheit.

XVIII. RADIOACTIVE WASTES

- A. No person may discharge radioactive wastes or isotopes into public sewers without the permission of the Approving Authority.
- B. The Approving Authority may establish, in compliance with applicable state and federal regulation, regulations for discharge of radioactive wastes into public sewers.

XIX. IMPAIRMENT OF FACILITIES

- A. No person may discharge into public sewers any substance capable of causing
 - 1. obstruction to the flow in sewers;
 - 2. interference with the operation of treatment processes of facilities; or
 - 3. excessive loading of treatment facilities.
- B. Discharge prohibited by Section XIX A include, but are not limited to, materials which exert or cause concentrations of
 - 1. inert suspended solids greater than 250 mg/l including but not limited to
 - (a) Fuller's earth
 - (b) lime slurries; and
 - (c) lime residues;
 - 2. dissolved solids greater than 750 mg/l including but not limited to
 - (a) sodium chloride; and
 - (b) sodium sulfate;
 - 3. excessive discoloration including but not limited to
 - (a) dye wastes; and
 - (b) vegetable tanning solutions; or
 - 4. BOD, COD, or chlorine demand in excess of normal plant capacity.
- C. No person may discharge into public sewers any substance that may
 - 1. deposit grease or oil in the sewer lines in such a manner as to clog the sewers;
 - 2. overload skimming and grease handling equipment;
 - 3. pass to the receiving waters without being effectively treated by normal wastewater treatment processes due to the nonamenability of the substance to bacterial action; or

4. deleteriously affect the treatment process due to excessive quantities.
- D. No person may discharge any substance into public sewers which
1. is not amenable to treatment or reduction by the processes and facilities employed; or
 2. is amenable to treatment only to such a degree that the treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.
- E. The Approving Authority shall regulate the flow and concentration of slugs when they may
1. impair the treatment process;
 2. cause damage to collection facilities;
 3. incur treatment costs exceeding those for normal wastewater; or
 4. render the effluent unfit for stream disposal or industrial use.
- F. No person may discharge into public sewers solid or viscous substances which may violate subsection "A" of this section if present in sufficient quantity or size including but not limited to
1. ashes;
 2. cinders;
 3. sand;
 4. mud;
 5. straw
 6. shavings;
 7. metal;
 8. glass;
 9. rags;
 10. feathers;
 11. tar;
 12. plastics;
 13. wood;
 14. unground garbage;
 15. whole blood;
 16. paunch manure;
 17. hair and fleshings;
 18. entrails;
 19. paper products, either whole or ground by garbage grinders;
 20. slops;
 21. chemical residues
 22. paint residues; or
 23. bulk solids.

XX. ILLEGAL WORK

Any person, contractor, firm or corporation responsible for work not meeting the above standards shall correct the deficiencies without delay. Parties responsible for the installation of illegal systems may be refused permits for future work until all corrections are made . Any installation found to be in violation of District specifications after the inspection is completed may be required to be corrected, based on severity of the offense and a review by the Board of Directors. Water service to illegal installations will be terminated ten (1) days after notification unless proper corrections are made.

XXI. EXCEPTIONS

Verbal exceptions to any portion of this Order are not permitted. Any exception to the Order, Rules or Regulations, shall be in writing with each party involved having a signed copy of the exception. No exceptions may be granted except upon action by the Board of Directors at a meeting in regular session. Exceptions are not valid until signed copies are disbursed to the parties involved.

Appendix C Backflow Prevention Form

The following form must be completed for each assembly tested. A signed and dated original must be submitted to the public water supplier for recordkeeping purposes:

BACKFLOW PREVENTION ASSEMBLY TEST AND MAINTENANCE REPORT

NAME OF PWS: _____

SERVICE AGREEMENT

I. **PURPOSE.** The Mason Creek Utility District of Harris County, Texas (the "District") is responsible for protecting the drinking water supply from contamination or pollution which could result from improper plumbing practices. The purpose of this service agreement is to notify each customer of the plumbing restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the District will begin service. In addition, when service to an existing connection has been suspended or terminated, the District will not re-establish service unless it has a signed copy of this agreement.

II. **PLUMBING RESTRICTIONS.** The following unacceptable plumbing practices are prohibited by State regulations.

A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.

B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.

C. No connection which allows water to be returned to the public drinking water supply is permitted.

D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.

E. No solder or flux which contains more than 0.2 percent lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

III. SERVICE AGREEMENT. The following are the terms of the service agreement between the District and Customer.

A. The District will maintain a copy of this agreement as long as the Customer and/or the premises is connected to the District.

B. The Customer shall allow his property to be inspected for possible cross-connections and other unacceptable plumbing practices. These inspections shall be conducted by the District or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other unacceptable plumbing practices exist; or after any major changes to the private plumbing facilities. The inspections shall be conducted during the District's normal business hours.

C. The District shall notify the Customer in writing of any cross-connection or other unacceptable plumbing practice which has been identified during the initial inspection or the periodic reinspection.

D. The Customer shall immediately correct any unacceptable plumbing practice on his premises.

E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the District. Copies of all testing and maintenance records shall be provided to the District.

IV. ENFORCEMENT. If the Customer fails to comply with the terms of the Service Agreement, the District shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

SERVICE AGREEMENT

I. **PURPOSE.** The Mason Creek Utility District of Harris County, Texas (the "District") is responsible for protecting the drinking water supply from contamination or pollution which could result from improper plumbing practices. The purpose of this service agreement is to notify each customer of the plumbing restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the District will begin service. In addition, when service to an existing connection has been suspended or terminated, the District will not re-establish service unless it has a signed copy of this agreement.

II. **PLUMBING RESTRICTIONS.** The following unacceptable plumbing practices are prohibited by State regulations.

A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.

B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.

C. No connection which allows water to be returned to the public drinking water supply is permitted.

D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.

E. No solder or flux which contains more than 0.2 percent lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

III. **SERVICE AGREEMENT.** The following are the terms of the service agreement between the District and Customer.

A. The District will maintain a copy of this agreement as long as the Customer and/or the

premises is connected to the District.

B. The Customer shall allow his property to be inspected for possible cross-connections and other unacceptable plumbing practices. These inspections shall be conducted by the District or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other unacceptable plumbing practices exist; or after any major changes to the private plumbing facilities. The inspections shall be conducted during the District's normal business hours.

C. The District shall notify the Customer in writing of any cross-connection or other unacceptable plumbing practice which has been identified during the initial inspection or the periodic reinspection.

D. The Customer shall immediately correct any unacceptable plumbing practice on his premises.

E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the District. Copies of all testing and maintenance records shall be provided to the District.

IV. ENFORCEMENT. If the Customer fails to comply with the terms of the Service Agreement, the District shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

Appendix E
Water Rates

As amended through 12-12-07

- (A) SFR Connections: For first 6,000 gallons of water used per billing period, \$16.00 (minimum monthly charge). For each 1,000 gallons of water used over 6,000 gallons during the billing period, the rate is set out in the chart below.

<i>Usage amount</i>	<i>Rate per 1,000 gallons*</i>
6,001 to 10,000	\$1.00
10,001 to 20,000	\$1.40
20,001 to 30,000	\$1.45
30,001 to 50,000	\$1.60
50,001 or more	\$1.75

* See (G) below for groundwater reduction fee.

- (B) Commercial Connections. The minimum monthly charge for each meter is the greater of \$13.00 per dwelling unit served by that meter, or the following amount determined by the size of the meter:

(i)	<u>Meter Size</u>	<u>Minimum Monthly Charge</u>
	5/8"	\$ 15.40
	3/4"	15.40
	1"	18.70
	1 1/2"	27.50
	2"	38.50
	3"	55.00
	4"	82.50
	6"	165.00
	8"	247.50

(ii) Plus \$2.00 per 1,000 gallons [See (G) below for groundwater reduction fee] for all usage over the minimum monthly quantity. The minimum monthly quantity is 6,000 gallons, or 6,000 gallons per dwelling unit served, whichever is greater.

(iii) Exception. For meters serving exclusively greenspace within public rights of way (by separate meter) or subject to public conservation restrictions, the charge for usage is \$0.50 per thousand gallons (no minimum charge or minimum monthly quantity). See (G), below, for groundwater reduction fee. Provided further, for water provided to greenspace owned by the District or covered by a conservation easement owned by the District, or provided to other facilities owned by the District, there is no charge, but the operator shall meter the amounts provided and make the information available to the Board upon request.

- (C) Back-up Connections; Unmetered Fire Connections

(i)	<u>Meter/Line Size</u>	<u>Minimum Monthly Charge*</u>
	4"	\$56, unless the contract calls for a different rate
	6"	\$106, unless the contract calls for a different rate
	8"	\$166, unless the contract calls for a different rate

* Two-way, or mutual, back-up contracts may call for no minimum monthly charge. For unmetered fire connections equipped with "Detect-A-Chek" or equivalent installation (low flow detection and double check valves), the minimum monthly charge is \$27.50 for a 6-inch or smaller connection and \$39.60 for all other connections, provided that the District is afforded satisfactory access to the installation.

(ii) Plus \$4.50 per 1,000 gallons for all usage, unless the contract calls for a different rate.

(D) Multiple Meters; Irrigation or "Water Only" Meters. If a connection has more than one water meter, each water meter will be read and billed independently, but failure to pay all charges related to any meter shall be deemed a breach of the contract of service for all of the premises of the customer, thus making all service to the premises, from any and all meters and taps, subject to termination for non-payment. If an SFR customer has specially applied for a secondary water meter to serve non-sewer uses at the same customer's premises which are already served by an existing water meter and sewer tap, the sewer charges do not apply to consumption through the secondary meter, and there is no minimum monthly charge for water service through the secondary meter, but instead all consumption through such a secondary meter shall be billed at the following water-only rates per 1,000 gallons per billing period, but remaining subject to Paragraph (E) below:

<i>Usage amount</i>	<i>Rate per 1,000 gallons*</i>
0 to 10,000	\$1.50
10,001 to 20,000	\$1.65
20,001 to 30,000	\$1.75
30,001 to 50,000	\$1.80
50,001 or more	\$2.00

* See (G) below for groundwater reduction fee.

From and after October 18, 2007: (1) no "water only" meter may be set, and no "water only" account may be opened, except for an SFR customer who has an active primary account (including both a minimum bill and sewer charges) in the same name and serving the same house as the "water only" account, and (2) service through a "water only" meter may not be turned off (at the request of the customer) unless the account is closed.

For billing periods beginning on or after January 18, 2008, special "water only" rates and charges mentioned in this rate order (e.g., tap fee, deposit, no minimum bill, no sewer charge) do not apply to an SFR customer unless the customer has an active primary account (including a minimum bill and sewer charges) in the same name and serving the same house as the "water only" account.

Connections established to serve non-SFR, permanent water-only users shall be treated the same as SFR water-only secondary meter connections, except as otherwise provided for in the case of service to greenspaces within public rights of way or subject to public conservation restrictions.

- (E) Certain Secondary Meter Connections; Additional Charges. If water obtained through a secondary water meter installed to serve non-sewer uses is ever used in such a way that any of the water is returned to the District's sanitary sewer system, the following additional charges shall be immediately due:
- (i) the full amount of the District's then current tap, meter, connection and inspection fees for both water and sewer connections, less the amount paid to the District for the original installation of the secondary meter; and
 - (ii) the full amount of water and sewer charges which would have been payable if the meter were an ordinary primary meter serving an ordinary water and sewer connection, less those amounts paid on account, for the shortest of the following time periods:
 - ((a)) the time since the secondary meter was placed in service;
 - ((b)) the time since the current customer became responsible for payment of charges at the premises involved; or
 - ((c)) two years.
- (F) Commencement of Charges. Water service charges commence with the initial tap of the water system.
- (G) Groundwater Reduction Fee. In addition to the rates for SFR and Commercial connections, as shown above, there shall be a groundwater reduction fee separately stated on each bill. It shall be \$0.45 per thousand gallons, including minimum quantities and additional quantities, if any. *Example:* For usage of 6,000 gallons or less with a minimum monthly quantity of 6,000 gallons, the fee would be \$2.70. Amounts collected from this fee shall be accounted for separately and spent only to pay the District's obligations under contract(s) with the City of Houston for groundwater reduction and/or water supply.

Appendix F
Sewer Rates

As amended through 12-12-07

- (A) SFR Connections. For the first 6,000 gallons of water used per billing period, \$13.00 (minimum monthly charge). For each 1,000 gallons of water used over 6,000 gallons in the billing period, the rate is as follows:

<i>Usage amount</i>	<i>Rate per 1,000 gallons*</i>
6,001 to 10,000	\$1.00
10,001 or more	\$1.25

Water used to fill a swimming pool is not subject to the charge for sewer service if the customer makes advance arrangements for a special reading of the meter before and after the filling and complies with the District's procedures.

- (B) Commercial Connections. The minimum monthly charge is \$8.80, or \$8.00 per dwelling unit, whichever is greater. For each 1,000 gallons of water used over 6,000 gallons (or 6,000 gallons per dwelling unit, if greater), the charge is \$2.50.
- (C) All Connections. Sewer service charges commence with initial tap of the sewer.

Appendix G
Fees of Office & Expenses
As amended through August 2006

Fees Of Office

1. *Statutory Limits.* The statutory limits on fees of office, as amended from time to time, shall always be observed, including both the rate and the monthly or annual maximum (currently \$7,200).
2. *Fees of Office.* A daily fee of office is payable for each day a director actually spends performing the duties of a director. In this subsection, "performing the duties of a director" means substantive performance of the management or business of the district, including participation in board and committee meetings and other activities involving the substantive deliberation of district business and in pertinent educational programs. The phrase does not include routine or ministerial activities such as the execution of documents, self-preparation for meetings, or other activities requiring a minimal amount of time. A daily fee may be payable only for those days when the services include attendance at a Board meeting, a bid opening, a committee meeting, a conference, a seminar or similar scheduled event at which the Director's attendance is approved by the Board.
3. *Board Approval.* The Board approves fees of office in the amount of \$150 per day, subject to the limitations of this order (\$7,200 annual limit).

Expenses

1. *General Criteria.* All expense reimbursements for Directors must meet the following general criteria:
 - a. They must serve a useful purpose, and they must be appropriate and helpful to the District and the Director who incurs them. Expenses of a spouse or family are not ordinarily appropriate.
 - b. Expenses of attending or participating in events held in conjunction with a conference or seminar must have a clear relationship to the functions of the District and a direct benefit to the District. The duration of a stay at a conference or seminar should not exceed the minimum necessary for efficient and productive participation in the working sessions (this does not prohibit a Director from staying longer if the Director personally bears the increase in cost).

c. Entertainment expense is not allowable unless there is a clear relationship to the functions of the District, a direct benefit to the District and special approval by the Board.

d. Reimbursements for travel, lodging, etc. may only be made when incurred in connection with a scheduled event outside the District for which a per-diem Director's fee could be payable (see above), and such reimbursements are limited as follows:

(1) Travel by auto: Reimbursement is limited to the applicable rate per mile published by the IRS as the average cost of operating an automobile, plus actual cost of parking and tolls.

(2) Travel by common carrier: Reimbursements are limited to the lowest fare reasonably available for the trip in question without cancellation penalty, taking into account the time when plans are made. First class or business class premiums are not reimbursable.

(3) Lodging and meals: These are normally reimbursable only when there is an overnight stay. The amount should not exceed the average prevailing level for the area where the expenses are incurred. However, meal costs for working sessions of conferences or seminars are reimbursable even if there is no overnight stay, provided the cost is reasonable.

2. *Claims; When To File.* Expenses do not become eligible for reimbursement until after they are incurred. A claim for reimbursement must be filed within 60 days after the expense is incurred. The claim must indicate the purpose, it must be accompanied by receipts for items over \$25, and it must be verified. In case a reimbursement is made which exceeds the actual expense incurred, the excess must be returned to the District within 120 days following the reimbursement. Advances against anticipated expenses are not allowed.

3. *Other Expenses.* Expenses not mentioned herein are reimbursable if they meet the general criteria and are approved by the Board. For good cause, the Board may approve a reimbursement which varies from the provisions of this policy.

Appendix H
Rules For Mason Creek Community Center
As Amended February 18, 2009

General Provisions

1. *Reservations, Etc.* Any group or individual may request to use part of the Facilities, on a first-come, first-reserved basis, after completing a permit form as provided by MCUD. A permit for each use is required. Such permit must be signed by a MCUD resident over 25 years of age who agrees to be ultimately responsible for the Facilities used and to be present during the use of the Facilities. Permits are not effective until signed by MCUD and returned to the user. Use fees and the deposit must be paid at the time of signing. *Exceptions:* This does not apply to ordinary swimming pool and tennis court users without permits.

2. *Keys.* The key will be available approximately 30 minutes before the beginning of the scheduled use period. Arrangements for obtaining the key must be made with the MCUD office. The key must be returned within 24 hours after the end of the scheduled rental. *Exceptions:* This paragraph does not apply to ordinary swimming pool and tennis court users without permits.

3. *Unauthorized Uses.* No user shall allow any group or individual to use the Facilities during the user's occupancy, other than those mentioned in the permit and approved for use of the Facilities. Occupancy will be limited to maximum capacity posted or prescribed by the District, whichever is lower. The Facilities are not to be used for any purpose which violates any State statute, local or county ordinance or regulation, or administrative rule to which the District is subject. Use permits (and other documents) may include requirements that users pay additional fees for any unauthorized or prohibited use or any violation of District rules, regulations, permits or terms of use. Any such additional fees may be deducted from the deposit and shall also be personal obligations of the user.

4. *Fees and Deposits.* Fees for use of the Facilities shall be determined by the day and length of use. See "Fee Rates," below. No refunds of fees will be made unless: (i) the District terminates the use, for no fault of the user, or (ii) the user gives the District advance notice of cancellation, in writing and before the beginning of the use period, in which case fees may only be refunded as follows:

<i>Number of days advance notice of cancellation given (in writing)</i>	<i>Percentage of fees refunded</i>
60 days or more	100%
30 to 59 days	50%
Fewer than 30 days	0% (no refund)

Fees and deposits must be paid by certified or cashier's check or money order payable to the District; cash will not be accepted. *Exceptions:* (1) Ordinary pool and tennis fees (without permits) may be paid by regular check payable to the District. (2) Residents of MCUD may pay fees and deposits by regular check payable to the District.

Each permittee agrees to accept the Facilities--with all equipment and decorations---as the permittee finds them at the beginning of the term of the permit, unless the permittee contacts the District office and arranges a joint inspection with a District representative at or before the beginning of the term of the permit. No refund is allowed for any condition or circumstance, unless permittee arranges such a joint inspection and brings the condition or circumstance to the attention of the District's representative at that time. Any refund is limited to the portion of the fee that corresponds to the portion of the agreed-upon Facility that the permittee cannot use, as a practical matter. If the sound system is found not to be working at the time of the joint inspection, and if it cannot be substantially restored, any refund is limited to the 10% of the fees for the use of the Facility (but there is no refund unless the sound system is integral to the function or event as planned).

5. *Deposit.* Users must pay deposits as provided below. See "Fee Rates." The District may apply the deposit to cover damage, lost or stolen items, re-keying, cleanup, higher applicable rates, additional fees and any other additional charges. If such additional charges exceed the deposit, the user will be responsible for the total amount, less the deposit. The District may provide a list of common additional charges, but the list does not limit the additional charges that may apply in a given case. *Exceptions:* Deposit requirements do not apply to ordinary swimming pool and tennis court users without permits.

6. *Delinquencies.* No user may use the Facilities if user is found to be delinquent in either utility payments, taxes, fees, damages or other payments to the District.

7. *Areas Approved; Signs.* All users are limited to the specific area approved for their use and may not use any other area, including the exterior of the Facilities. Exterior banners or signs are forbidden, except for temporary poster-sized signs placed on an area approved by the District announcing the meeting, with the placement of each sign being at the sole discretion of the District

8. *Evening Curfew.* In respect of the neighbors, all use must end by 10:30 p.m. (or 12:00 midnight in the case of the Main Ballroom), unless a later occupancy is specially approved by the District's Board or its designee.

9. *Termination by MCUD.* MCUD reserves the right to terminate any user's occupancy at any time, with no liability in excess of fees and deposits paid.

10. *Damage, Disturbance.* Users shall not use the buildings in such a manner as to damage the buildings or to disturb other users or people in the vicinity of the building.

11. *Tennis Court Regulations.*

a) **Availability; Reservations.** Tennis courts are available on a first-come, first-served basis to keyholders only, except that courts may be reserved in advance for league play as follows: (i) league-reserved courts must be posted at the start of each season, and (ii) at least two courts must be left available for general use at all times. A keyholder is the person who pays the prescribed fees and deposits, but only during the time period for which the fee is paid.

b) **Guests.** Only keyholders may bring guests. A maximum of three guests per keyholder is allowed at any one time, and all guests must use the same court as the keyholder. The keyholder must be present.

c) **League Rosters & Fees.** At least 25% of the members on each team's roster must be District residents or keyholders. Teams must submit complete rosters to the tennis committee before the start of each season, together with all required fees. Rosters must include each name, address and keyholder status upon a form provided by the tennis committee. Any team submitting no roster (or an incomplete roster, or insufficient fees) before the start of the season may lose the right to use the Facilities for the remainder of the season. Any team submitting a false roster may lose the right to use the Facilities forever.

d) **Tennis Committee.** The District Board may designate the tennis committee from time to time. The committee is responsible for collecting team rosters and fees, transmitting the fees to the District and making recommendations to the Board. It has no other authority.

e) **Restrictions on Use of Keys.** Keys authorize only the individual keyholder (and guests, as restricted above) to use the Facilities. Keys may not be lent or transferred.

f) **Professional Instruction.** Professional instruction may only be provided to keyholders. A keyholder may bring an instructor as a guest.

12. *Additional Requirements; Waivers; Amendments.*

a) MCUD reserves the right to impose additional requirements and restrictions and the right to refuse to allow particular uses.

b) MCUD may provide constables, lifeguards, etc., at its discretion, and add the cost to the fee.

c) Any request to amend or waive these regulations should be filed, in writing, at least 15 days before the next regular Board meeting of MCUD.

d) MCUD reserves the right to amend these regulations at its discretion at any time with or without actual notice to those reserving or requesting use of the Facilities.

13. *Other Provisions:*

a) Political organizations may reserve the Facilities for meetings.

b) Persons using the Facilities may not throw rice (indoors or outdoors) but-- outdoors only--may use birdseed or liquid bubbles in lieu of rice.

c) No firearms will be permitted in the Facilities.

d) No smoke machines or pyrotechnical devices will be permitted in the Facilities.

e) No animals will be allowed at the Facilities unless authorized by the District in advance, except seeing-eye dogs..

f) No smoking permitted at the Facilities.

g) No commercial or sales activity is allowed. *Exceptions:* This does not prohibit: (i) events that are strictly educational or social (such as for examples: a party for employees, or a seminar); (ii) events that are sponsored by a non-profit organization that may include commercial activities to raise funds for the organization (such as, for example: a silent auction to raise funds for a charity), provided that the permit contains provisions to restrict the activities appropriately; (iii) events that are purely commercial, but which do not include sale or delivery of tangible, moveable property (such as, for example: an investment seminar that includes sale of securities), or (iv) commercial or sales activity during a District-sponsored public festival or "open house," if the activity is arranged and approved in advance and restricted to the specific area designated by the District (which area will be limited so as not to interfere with the main purpose of the event.)

Fee Rates

Houghton Meeting Room (capacity: 35 persons, max.)

A. RESIDENTS:

- | | | |
|------------------------------|--|----------|
| (1) MONDAY THROUGH THURSDAY | | |
| 9:00 A.M. THROUGH 4:00 P.M. | | \$50.00* |
| 5:00 P.M. THROUGH 10:30 P.M. | | \$50.00* |
| (2) FRIDAY THROUGH SUNDAY | | |
| 9:00 A.M. THROUGH 4:00 P.M. | | \$50.00* |
| 5:00 P.M. THROUGH 10:30 P.M. | | \$50.00* |

(3) ADDITIONAL PROVISIONS

*Extra hours, if authorized by the District or its designee, are \$10 each

*Plus \$500 if the user allows alcohol on the premises when not authorized by the permit.

*A 10% discount will be given for all regular use groups who use and reserve the room in advance for twelve (12) or more times per year.

*Plus actual cost of constables, if required by MCUD for the event in question.

*The deposit for residents is \$100.00.

B. NON-RESIDENTS:

- | | | |
|------------------------------|--|-----------|
| (1) MONDAY THROUGH THURSDAY | | |
| 9:00 A.M. THROUGH 4:00 P.M. | | \$75.00* |
| 5:00 P.M. THROUGH 10:30 P.M. | | \$75.00* |
| (2) FRIDAY THROUGH SUNDAY | | |
| 9:00 A.M. THROUGH 4:00 P.M. | | \$150.00* |
| 5:00 P.M. THROUGH 10:30 P.M. | | \$150.00* |

(3) ADDITIONAL PROVISIONS

*Extra hours, if authorized by the District or its designee, are \$15 each on Monday through Thursday or \$30 each on other days.

*Plus \$500 if the user allows alcohol on the premises when not authorized by the permit.

*A 10% discount will be given for all regular use groups who use and reserve the room in advance for twelve (12) or more times per year.

*Plus actual cost of constables, if required by MCUD for the event in question.

*The deposit for non-residents is \$250.00.

Main Ballroom (capacity: 242 persons, max.; the term “mid-range use” refers to occupancy by no more than 100 persons.)

A. RESIDENTS:

- (1) MONDAY THROUGH SUNDAY: 9:00 A.M. THROUGH 12:00 P.M.
BASE RENTAL (3 HOURS OR LESS) \$400.00†* (\$200.00* for mid-range use)
EACH ADDITIONAL HOUR \$100.00†* (\$50.00* for mid-range use)

FULL-DAY OPTION (MAX. 15 HOURS): \$1,000.00†
(*applies only if selected in advance, in lieu of base plus additional hours rate*)

(2) ADDITIONAL PROVISIONS

† Rate shown is for groups over 100 authorized by permit; add \$500 for unauthorized groups over 100.

*Extra hours, if authorized by the District or its designee, are \$100 (\$50.00 for mid-range use).

*Plus \$500 if the user allows alcohol on the premises when not authorized by the permit.

*Plus actual cost of constables, if required by MCUD for the event in question.

*The deposit for residents is \$500.00.

B. NON-RESIDENTS

- (1) MONDAY THROUGH SUNDAY: 9:00 A.M. THROUGH 12:00 P.M.
BASE RENTAL (3 HOUR MINIMUM) \$550.00 †* (\$300.00* for mid-range use)
EACH ADDITIONAL HOUR \$150.00 †* (\$100.00* for mid-range use)

FULL-DAY OPTION (MAX. 15 HOURS): \$1,500.00 †*
(*applies only if selected in advance, in lieu of base plus additional hours rate*)

(2) ADDITIONAL PROVISIONS

† Rate shown is for groups over 100 authorized by permit; add \$500 for unauthorized groups over 100.

*Extra hours, if authorized by the District or its designee, are \$150 (\$100.00 for mid-range use)

*Plus \$500 if the user allows alcohol on the premises when not authorized by the permit.

*Plus actual cost of constables, if required by MCUD for the event in question.

*The deposit for non-residents is \$1,000.00 (\$500.00 for mid-range use).

Swimming Pool Areas (non-public events)

\$100 for the first two hours or any part thereof, plus \$50 per hour thereafter

ADDITIONAL PROVISIONS

*The deposit is \$200.00.

*Plus \$500 if the user allows alcohol on the premises when not authorized by the permit.

*Additional provisions apply, as stated in the permit form.

*Lifeguards may be required (at additional cost)

Swimming Memberships (for use during regular public hours)

RESIDENTS: \$100 per swimming season per family (or individual).

For new residents of the District, the membership fee for the first season (current or upcoming) is waived. For new residents arriving during a season, but after June 30, the fees for that season and the following season are waived.

NON-RESIDENTS: \$250 per swimming season per family (or individual).

GUESTS: Only a member may bring guests, and all guests must be accompanied by the member. A maximum of two guests per family is allowed at any one time, except that, during off-peak hours, the pool manager may allow additional guests, not to exceed a reasonable number.

Tennis Courts (ordinary use;no special permit)

RESIDENTS: \$25 key deposit only.

NON-RESIDENTS: \$350 per year, plus \$25 key deposit. *Exception:* From and after January 1, 2004, a non-resident duly listed on a team roster may pay \$25 per league per season, which will allow play for that particular league and that particular season only (no key is issued in this case, and the listed person is not considered a keyholder for bringing guests, or any other purpose).

GUESTS: See "Tennis Court Regulations."

Appendix I
Records Management
As adopted November 15, 2006

WHEREAS, Title 6, Subtitle C, Local Government Code (“Local Government Records Act”), provides that each local government must establish an active and continuing records management program; and

WHEREAS, Mason Creek Utility District (“District”) desires to adopt a plan for that purpose and to prescribe policies and procedures consistent with the Local Government Records Act and in the interests of cost-effective and efficient recordkeeping;

NOW THEREFORE:

SECTION 1. DEFINITION OF RECORDS OF THE DISTRICT. All documents, papers, letters, books, maps, photographs, sound or video recordings, microfilm, magnetic tape, electronic media, or other information recording media, regardless of physical form or characteristic and regardless of whether public access to it is open or restricted under the laws of the state, created or received by the District or any of its officers or employees pursuant to law or in the transaction of public business are hereby declared to be the records of the District and shall be created, maintained, and disposed of in accordance with the provisions of this order or procedures authorized by it and in no other manner.

SECTION 2. RECORDS DECLARED PUBLIC PROPERTY. All records as defined in Sec. 1 of this Appendix are hereby declared to be the property of the District. No official or employee of the District has, by virtue of his or her position, any personal or property right to such records even though he or she may have developed or compiled them. The unauthorized destruction, removal from files, or use of such records is prohibited.

SECTION 3. POLICY. It is hereby declared to be the policy of the District to provide for efficient, economical, and effective controls over the creation, distribution, organization, maintenance, use, and disposition of all records of this office through a comprehensive system of integrated procedures for the management of records from their creation to their ultimate disposition, consistent with the requirements of the Local Government Records Act and accepted records management practice.

SECTION 4. RECORDS MANAGEMENT OFFICER. The Office Manager of the District will serve as records management officer for the District as provided by law and will ensure that the maintenance, destruction, electronic storage, or other disposition of the records of this office are carried out in accordance with the requirements of the Local Government Records Act.

SECTION 5. RECORDS CONTROL SCHEDULES. Appropriate records control schedules issued by the Texas State Library and Archives Commission shall be adopted by the records management officer for use in District, as provided by law. Any destruction of records of the District will be in accordance with these schedules and the Local Government Records Act.

SECTION 6. SUPERCEDING ORDER. This Appendix shall supercede all records retention policies previously adopted. The records control scheduled adopted by the records management officer shall supercede all such schedules previously adopted.

ADOPTED by the Board of Directors of Mason Creek Utility District on the date shown above.
